

# BUILDING PRODUCTS

The Building Products Division of Macsteel Service Centers USA supplies a broad range of steel building products for the residential and commercial construction industry.

At our Building Products manufacturing facilities, we produce

several well-known metal roofing products, complete with trim accessories. Our inventories are positioned throughout the United States in order to serve all of our domestic customers quickly and efficiently.

## THE POWER OF MACSTEEL SERVICE CENTERS USA

There is an undeniable, unstoppable force rolling across the country. As a growing powerhouse in the service center industry, Macsteel Service Centers USA is coming your way with outstanding sourcing, a diverse and value-added product line, more flexibility in scheduling and very competitive pricing.

With many locations throughout North America, Macsteel Service Centers USA can provide you with one-stop service, distribution and processing of carbon, stainless, aluminum and specialty metals. Our inventories include a full range of flat rolled, plate, tube, pipe, bar and structural products.

In other words, you get everything you would expect from the low cost/high value supplier in metals distribution.

# BUILDING PRODUCTS

## PRODUCT CATEGORIES

### Metal Roofing for commercial and residential

- Tuff-Rib™ 38" wide roofing and siding product. Used in commercial and residential applications, the Tuff-Rib™ product line is a result of many years of innovation. The product has proven itself in a diverse range of applications, has earned the loyalty of the industry and is superior in performance and durability. Years of testing and real world application have proven the Tuff-Rib™ design is unmatched. A 3/4" profile provides greater rigidity and load carrying capacity than other configurations. 9" rib spacing with five major and eight minor ribs means added toughness with a weather-tight lap design.
- 29 and 26 gauge
- Painted and bare Galvanized, Galvalume®
- Corrugated 1 1/4" and 2 1/2" in Hot Dipped Galvanized and Galvalume®. Corrugated is the traditional roof and wall panel. It is used throughout the industry because of its strength and versatility.
- 1 1/4" in 31,30,29,26 gauge
- 2 1/2" in 31,30,29,26 gauge
- 5v-Crimp, a versatile and high performance roofing product, is light-weight and durable. Available in Hot Dipped Galvanized coating and Galvalume®
- 31,30,29,26 gauge
- R-Panel roll-formed roof and wall panel in coated, bare, Galvanized and Galvalume®. A distinctive style, clean look and superior strength. Available in a variety of colors. R-Panel, our strongest exposed fastener roof panel, is available with a Purlin bearing leg for added strength and support.
- In 29 and 26 gauge

### Coils For Metal Roofing

- Coils for Steel Studs
- Structural Red Iron Coils
- Galvanized Structural Coils

### Coil Coated Steel

Pre-primed Galvalume®, Galvanized and Red Iron can be coated, slit and embossed to accommodate almost any coil finishing job from thin to heavy gauges.

Available coatings include Polyester, Siliconized Polyester and Kynar®-based finish and many others.

## PROCESSING CAPABILITIES

We offer slitting, blanking, roll forming and master coils for most building or construction applications, including steel buildings, post frame buildings, residential roofing and gas station canopies.

## SUPPORT SERVICES

A complete product range and a full complement of processing options are only two thirds of the Macsteel Service Centers USA story. To provide you with turnkey service, we offer the following support services and benefits.

- Metallurgical and Design Support
- ISO 9001:2000, QS-9000 Quality Systems
- Vendor-Managed Inventory Systems
- JIT Delivery Programs
- Company-owned Truck Fleet
- Customized Stocking Programs
- Single Invoiced Prepaint Packages
