

PIPE PRODUCTS

Macsteel was the first distributor in North America to import pipe from the Pacific Rim and South Africa. Today, with more than 50 years of experience in the pipe industry, we work in partnership with major pipe mills throughout the world including Macsteel Tube & Pipe of South Africa.

We operate our pipe business as a warehouse distributor, shipping pipe

from stock, and as a trader, selling mill direct. This system has led several major wholesale distributors, fence suppliers, and manufacturers to choose Macsteel Service Centers USA as their national partner.

With over 100,000 tons of volume per year in pipe products, we can be counted on for inventory availability and competitive pricing.

PIPE PRODUCTS

THE POWER OF MACSTEEL SERVICE CENTERS USA

There is an undeniable, unstoppable force rolling across the country. As a growing powerhouse in the service center industry, Macsteel Service Centers USA is coming your way with outstanding sourcing, a diverse and value-added product line, more flexibility in scheduling and very competitive pricing.

With many locations throughout North America, Macsteel Service Centers USA can provide you with one-stop service, distribution and processing of carbon, stainless, aluminum and specialty metals. Our inventories include a full range of flat rolled, plate, tube, pipe, bar and structural products.

In other words, you get everything you would expect from the low cost/high value supplier in metals distribution.

Ride the wave!
